

## Adding your RATIONALE to Each Module

The purpose of the Rationale is to explain HOW the assignments are connected to the Standards and Indicators. You need to explain how they are connected.

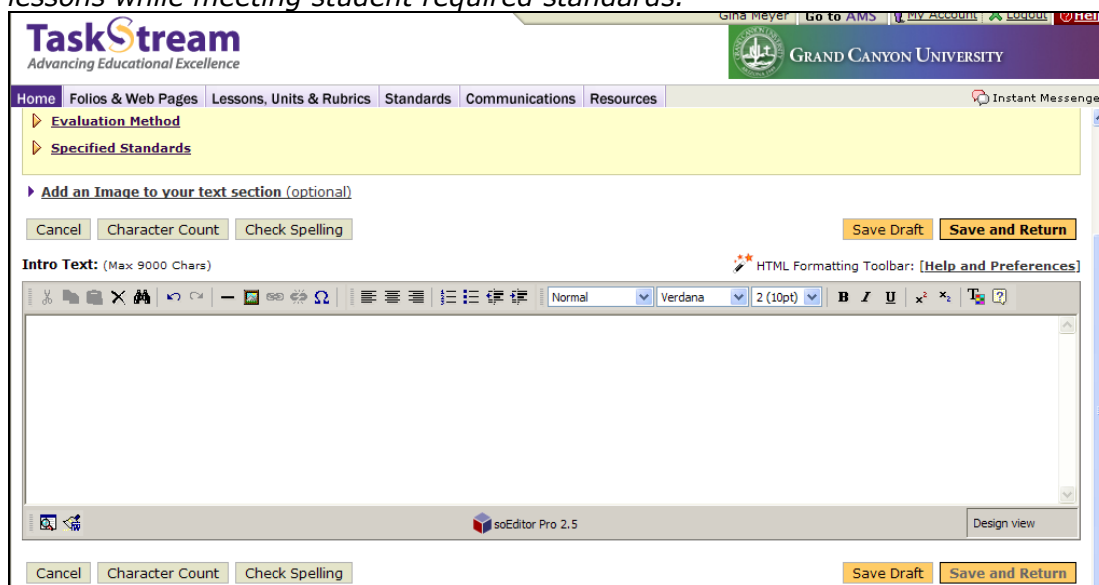

- 1) Click the **Text & Image** button in the **Add** toolbar located on the bottom of the right frame.

- 2) Write your Rationale in the text box.

For Example:

*"This assignment meets the following requirements because it effectively evaluates the curriculum materials and resources for accuracy, comprehensiveness, and usefulness for representing particular ideas and concepts. It also illustrates that the candidate teacher can apply technology to lessons while meeting student required standards."*

- 3) Once you have completed typing your **Rationale**, click the **Save and Return** button.
