## Attaching Standards

Students, in their Rationales, must identify the standards and indicators tied into each assignment. Students will select from 'specified' standards as is stated in the process below.

In addition, students may elect to use the National Teaching Standards or Content Specific Standards that relate to their specialty, i.e. ISTE National Educational Standards (NET), as well as their own state's standards for professionals or content areas.

## LIST THE STANDARDS AND INDICATORS THAT TIE INTO THESE ASSIGNMENTS:

1) Click the **Standards** button from the **Add** toolbar located at the bottom of the right frame.

## **Attaching Other State or National Standards**

For example: Attaching the ISTE National Educational Technology Standards (NETS):

1. To use ISTE NETS standards, click the **Standards** button from the **Add** toolbar and select the **View US National Standards** link.
