

Learning Communities at GCU

LEARN. GROW. ACHIEVE. *TOGETHER.*

GCU has over 75 clubs and organizations, including 24 Learning Communities. College-based learning communities provide students with opportunities to connect with likeminded peers at GCU who share common academic goals and similar special interests.

As part of a goal-oriented learning community, students can network and further personal or professional development through relationship building, peer-to-peer support and friendship – outside of the classroom.

Here's a list of learning communities and respective colleges, as well as who can join and contact information.
