

## Transfer Guide between Community College of the Air Force (CCAF) and Grand Canyon University (GCU)

Grand Canyon University's Bachelor of Science in Applied Business Information Systems degree program examines the fundamentals of business information systems and technology, including programming, principles of database management, networking, IT project management and ethical considerations related to IT governance. The BS in applied business information systems program is designed for individuals who have a business mindset and propensity toward information systems technology. Since 1949, Grand Canyon University has been a premier private university in Arizona, helping students find their purpose and achieve their potential.
