

Strong finish to spring semester

As we approach the end of the academic year, we want to thank you all for your diligence and cooperation regarding COVID. We have managed to keep our case numbers low this semester and are finishing out the year strong. There have been six or fewer cases connected to campus each of the past five weeks and there is currently only one active case on campus. We are pleased that cases remained so low with campus operations being 100% back to normal with no restrictions in place. GCU will continue to monitor the situation alongside our local health authorities.

We hope everyone has a safe and relaxing summer!
